

Legend/Leyenda Del Mapa

- Bicycle Lane**
A portion of a roadway designated for preferential or exclusive use of bicycles and defined by pavement markings, curbs, signs or other traffic-control devices (see symbol). Bicycle lanes are a minimum of four feet wide.
- Separated Bike Lane**
A separated lane is bike lane that is buffered from the travel lane by a raised curb, median, horizontal deliniators, or parking lane for a dedicated space for cyclists.
- Multi-Use Path**
A paved facility physically separate from the roadway and automobile traffic designated solely for bicycles (both human powered and non-human powered), mobility devices, shared active transportation vehicles, horses, skateboards (both human powered and non-human powered), and pedestrians. Multi-Use paths are a minimum of 10 feet wide.
- Buffered Bike Lane**
A bike lane on an arterial or collector street where increased space separates cyclists from traffic. These buffers are typically 2 to 3 feet wide with diagonal hatches or chevrons.
- Shared Bike Lane**
Shared lanes, or sharrows, are used where low traffic speeds and volumes do not necessitate a separate bike lane.

X

Bicycle & Pedestrian Crossing
At grade or grade-separated crossing accessible to bicyclists and pedestrians.

Cruce para bicicletas y peatones
Cruce al mismo nivel o con separación de niveles accesible para ciclistas y peatones.

BIKEIT
BIKEit is the name of Tempe's bike boulevard system. Bike boulevards are off-street pathways and streets with low-motorized traffic volumes/speeds and designed to provide bicycle travel. BIKEit connects neighborhoods to major destinations, employment centers and activity centers while enhancing access and comfort for bicyclists.

BIKEit es el nombre del sistema de bulevares para bicicletas de Tempe. Los bulevares para bicicletas son caminos fuera de la vía, así como calles con volúmenes bajos o bajas velocidades de tráfico motorizado, diseñados para facilitar el transporte en bicicleta. BIKEit conecta vecindarios con destinos principales, centros de empleo y centros de actividad, mientras mejora el acceso y la comodidad para los ciclistas.
